## Does Your Horse Need a Few More Healthy Calories?

### Supplement with Integrity® Rice Bran

**July 22, 2015 – PERRIS, Calif.** – Horse owners seeking healthy weight gain or weight maintenance for their horse often turn to a rice bran supplement. Available in meal and nugget, rice bran is high in fat and helps horses add the additional calories for building a little more lean muscle.

Integrity Stabilized Rice Bran is a high fat diet that also adds and enhances a healthy skin coat. One of the attributes that makes this feed superior is that it is calcium-phosphorous balanced. That means when you add it to a balanced feed, the calcium-phosphorus ratio of the feed will not be altered and your horse will still be fed the nutritionally balanced diet you've intended.

Scientific benefits aside, this is just a darn good feed with high quality ingredients like whole ground flaxseed, added Vitamin E, probiotics and prebiotics, to name a few.

Integrity products offer balanced feeds for *all* types of horses, such as Adult/Senior, Growth, Lite, Performance, Mare & Foal, Low Starch and more. Their horse feeds are available in feed stores throughout California and Arizona. To find a feed store near you, call Star Milling at (800) 733-6455 or go to [www.starmilling.com/dealer.php](http://www.starmilling.com/dealer.php).

### About Star Milling Company

Star Milling Company manufactures nutritious, high-quality animal feed that is sold through feed stores in the western United States. Products are sold under the brand names Ace Hi, Integrity, Kelley's, Star Brand, Ultimate Show Feed, and Ultra Balance.

A family-owned and operated company for three generations, Star Milling has a personal commitment to quality and good manufacturing practices.

While large enough to manufacture a wide range of feeds for many species, it has a small company concern for our customers and their animals.
