premium FISH DIETS

Star Milling Co.[®]
Feeding Commercial and Pond Fish
for Over 40 Years

Whether you are operating a commercial fish farm, or have a backyard pond or lake, Star Milling Co. has the products and resources you need to maintain a healthy and balanced diet for your fish.

Various nutrition profiles and different die sizes are available to accurately complement your feeding program. Contact your Sales Representative for more information.

Species Specific Production Diets

Star Milling Co. offers diets for a wide variety of fish.

Catfish • Tilapia • Trout • Bass
Sturgeon • Ornamental Pond Fish

Each diet provides:

- Amino acid balance for improved growth and feed conversion rates (FCR's)
- Exclusive vitamin and mineral premixes
- Added probiotics for improved immune function

Star Milling Co. Fingerling Diets

Star Milling Co. fingerling diets are formulated to promote fast and healthy growth. Available in sack or bulk.

General Pond Diets

Star Milling Co. offers diets that are formulated for the overall health, growth, and performance of a wide variety of pond fish species in both tank and earthen pond environments. These complete feeds are ideal for use in aquaponics systems and backyard ponds.
