PRODUCT #	SIZE	FORM
45910425	25 lbs.	Pellet
45910450	50 lbs.	Pellet

Feeding Directions

Feed as a sole ration, at a rate of 1.5—2.0% of body weight per day, split into 2 meals. Do not exceed 2.0% of body weight. This is meant to serve as a guideline, and individual feeding amounts may vary. Monitor your pig's weight and body condition and adjust feeding amounts accordingly. Miniature and pot-belly pigs are prone to over-eating and obesity, and should not be overfed with feed and treats.

Provide clean, fresh drinking water at all times. Store in a cool, dry, ventilated location away from rodents and insects. Do not feed if moldy, spoiled, insect/rodent infested, or if feed has an uncharacteristic odor or appearance, as it may cause illness or death. WARNING! - Do not feed to sheep. This feed contains added copper at levels that may be toxic if consumed by sheep.
