PRODUCT #	SIZE	FORM
35520448	8 lbs. (bale of 6)	Crumble
35520850	50 lbs.	Crumble

Feeding Directions

The amount of feed required for a finished bird is determined by the breed type. Broilers will require 8-10 pounds of this feed to produce 4—4.5 pounds of bodyweight in about 8 weeks. Provide clean, fresh drinking water at all times. Store in a cool, dry, ventilated location away from rodents and insects. Do not feed if moldy, spoiled, insect/rodent infested, or if feed has an uncharacteristic odor or appearance, as it may cause illness or death. **WARNING!** - Do not feed to sheep. This feed contains added copper at levels that may be toxic if consumed by sheep.
