Feeding Directions

The following feeding amounts are designed as a starting point and should be adjusted for your small animal. The portion is for one animal. Adjust if more animals are fed. Suggested Daily Feeding Amount: Small rabbit and chinchilla feed 1/4-1/2 cup. Large rabbit feed 1/2 to 1 cup. Best results are obtained by feeding only the amount the animal will consume in one day. Discarding the uneaten portion and clean food container before next feed. Always provide plenty of clean, fresh water.
